

Bringing life, joy and hope through great food and a helping hand

The Life Café Project is moving to a new location

To all of our lovely families, volunteers, take-away customers, partners, suppliers and supporters,

The **Life Café Project** will be moving to a new location in Park Wood, as we continue to **serve the local community** and explore creative ways to continue running the project and secure its **long-term sustainability** despite Covid-19 and its associated challenges.

Until then, with many thanks to our church partners, **we will operate temporarily from The Vine Church on Boughton Lane as of Friday 5th February 2021.** We will continue to produce and deliver our delicious meals to support those who need them in Park Wood and Shepway, especially families with children, those having to shield or self-isolate and those who are facing sudden hardship.

So, our commitment to you all is this:

- our community meals will continue to run uninterrupted,
- home delivery will be offered to all who would normally collect from the Fusion Healthy Living Centre,
- we will be back soon with our takeaway coffee and food menus; look out for updates on our website as soon as this is running again.

The Life Café Team would like to give a **HUGE THANK YOU** to you all for all you have done to support, engage, donate and collaborate with us – with special thanks to Fusion Maidstone Healthy Living Centre for all they have generously contributed in resources, networking and providing use of their café space and kitchen, integral to the launch of the project. We look forward to continuing to collaborate and build on the great success of our partnership with Fusion, as we work together in the community.
